

\$190 - \$400

# Things To Avoid:

Glass Screens - Easily breakable

Thin / Pin Power Supply - Easily breakable

Not getting extended warranty - More likely to break in year 2

Less than 4GB of RAM - 4GB needed for quick functionality

iPads or Tablets - Unable to run required ULS software

# Suggestions:

Research brands - Go online and read reviews of recent Chromebooks

Test drive - Try out the chromebooks at local vendors before buying

Search for deals - Best prices are often found online

Purchase early - Allow for time to set up and get familiar

Extended warranty - Will save you \$\$\$ in the long term
